

OP Welcomes ROG Orthodontics

We are excited to welcome ROG Orthodontics to the Orthodontic Partners (OP) team! ROG Orthodontics is the second Pennsylvania-based practice to join the OP network, and they maintain three locations in eastern Pennsylvania.

Co-founded by Dr. Otto Rosenast and Dr. Vincent Parisi, ROG Orthodontics has been crafting smiles for over forty years. Joining OP from ROG Orthodontics are Dr. Natalie Parisi, Dr. Dennis Mauro, and Dr. Ashima Sharma.

Dr. Natalie Parisi explained that the ability to maintain clinical autonomy and brand identity were key factors in the choice to partner with OP. Says Dr. Parisi: "I will be much happier being able to focus and spend more time on patient care. It will allow me to do the things I love, which are learning, teaching and creating fantastic smiles." Outside the office, Dr. Parisi is an active supporter of the Girl Scouts of Eastern PA, IM Able Foundation, and co-founder of the Power of the Purse in Berks County Fund.

Dr. Mauro specializes in and lectures on aesthetic orthodontic treatment, and was voted one of Incisal Edge's 40 under 40. He is also top 1% Invisalign doctor, and treats more patients with Incognito than any other provider in Pennsylvania.

We feel fortunate to kick off the new year with such a strong group of professionals joining the Orthodontic Partners team. Be sure to extend a warm welcome to ROG Orthodontics!
